

KIWICARE®

Gro-Sure™ Cacti & Succulent Pump'n'Feed
For longer lasting flowers and healthy growth

www.kiwicare.co.nz

Background

[Gro-Sure Cacti & Succulent Pump'n'Feed](#) is the perfect food for all your cacti and succulents. This formula is enriched with the essential nutrients and trace elements that cacti and succulents need to thrive. It boosts growth, encourages flowering* and promotes more vibrant colouration.

Benefits and Features

- Easy dose pump.
- Suitable for all types of cacti and succulents.
- Essential nutrients and trace elements.

Available As

- 300 ml pump pack.

Active Ingredients

Nutrients - NPK ratio 1:2:2 (as 0.0025% N; 0.004% P, 0.005% K w/v elemental) plus trace elements Fe, B.

Application

Directions

- Apply 1 pump to 30 ml of water (approximately an egg cup full) for each plant you wish to feed.
- Apply once a month during the growing season (typically spring and autumn) and less frequently during the winter season.

For Best Results

- Different varieties of plants will have different growth patterns – refer to the plant label for information specific to your particular plant.
- Water once a week in the growing season reducing to once a month during the winter months or when plants are dormant
- Cacti and succulents thrive in bright sunlight so choose a location in your home that receives daily sunlight – window ledges are ideal.
- Rotate the pot the plant is in each time you water or feed, this will prevent it from growing too much in one direction (i.e. towards the light source).

CPR for Your Cacti and Succulent Houseplants

How are your houseplants? Do they need Care, Protection and Revitalising? Do they need CPR?

The Kiwicare [Gro-Sure Houseplant range](#) has all you need to give your cacti and succulents the CPR they need.

1. Care

- a. Use [Gro-Sure Watering Indicators](#) to ensure you water your houseplants when they need it.
- b. Use [Gro-Sure Cacti and Succulent Pump'n'Feed](#) and [Droplet Feeders](#) to make sure your houseplants have the nutrients they need for healthy growth.
- c. Use [Gro-Sure Houseplant Mist'n'Feed](#) to raise humidity around foliage for healthier green leaves.

2. Protect

- a. Use [Gro-Sure Houseplant Insect Control Spray](#) to protect your houseplant from insect pests.

3. Revitalise

- a. Re-pot your houseplant in [Gro-Sure Houseplant Potting Mix](#) to prevent root restriction, provide good drainage and aeration, and provide root delivered nutrients.
- b. Then go back to 1.

This CPR cycle will ensure your houseplants continue to give you pleasure for years.

Also, in the [Gro-Sure Houseplant Range](#) are Orchid specific options for feeding and misting your plants.
