NO Fruit Flies Traps

Non-toxic traps for attracting and trapping fruit flies to protect your fruit and drinks from annoying flies.

Benefits and Features

- Non-toxic fruit fly traps, safe to use around stored fruit and sweet drinks
- Pheromone in glues attracts fruit flies
- Catches and kills fruit flies to protect damage and infestation of fruit and drinks
- Environmentally friendly

Controls

- Fruit Flies

Directions

1. Write the date on the trap.
2. Fold the trap housing into a box and close one end.
3. With the protective paper facing up, fold the ends of the glue board trap up 90 degrees.
4. Remove the protective paper from the glue board.
5. With the trap housing slot side up, slide the glue board into the trap housing so the glue surface is facing up towards the slot.
6. Close the second end of the trap housing.
7. Set the trap near the fruit bowl or bins in the room to be protected. The trap can be stood upright or with the built-in stand at the back.
8. Check the trap every 1-2 weeks for signs of infestation.
9. Replace the trap after 8-12 weeks use.

For Best Results

- Traps can be used in conjunction with [NO Bugs Super Protective Barrier](#) Spray.
- Avoid leaving residues of fruit juice, wine or beer in glasses or bottles. Wash or rinse bottles and glasses well when finished.
- For indoor use only.

Active Ingredients

Non-toxic trap with Fruit (Vinegar) fly pheromone for male & female fruit flies (*Drosophila melanogaster*)

Registration
