

KIWICARE®

Weed Weapon Natural Power Natural Organic Herbicide

The fast, effective natural way to weed control

www.kiwicare.co.nz

Weed Weapon Natural Power

Non-residual, non-selective weed control for organic gardening and applications where 'chemical' herbicides are not desirable.

Benefits and Features

- Fast acting – visible results within 1 - 3 hours.
- Remains inactive in soil – won't harm neighbouring plants
- Natural plant derived fatty acids.
- BioGro® Certified Organic for use in organic gardening
- Rainfast in 1 hour.
- Does not contain glyphosate
- Safe for children and pets once dry.
- Concentrate registered for use around fruit and vegetables.

Controls

Grass weeds, broadleaf weeds, clovers, algae and moss.

Because [Weed Weapon Natural Power](#) burns down weeds by desiccation of foliage and is non-systemic it will kill many weed species but is most effective when weeds are young and have not developed deep root systems which store large amounts of energy; for such weeds a further application may be necessary.

Directions

Concentrate

1. Shake well.
2. For general weeds dilute 70 ml of concentrate in 1 L of clean water.
For more mature, tougher weeds dilute 100 ml concentrate in 1 L of clean water.
3. Apply using a pressure sprayer.
4. Spray entire weed until just wet.

Ready to Use

1. Shake well.
2. Using pinch and twist motion, adjust spray nozzle to 'SPRAY' position.
3. Spray entire weed until just wet.
4. Turn nozzle to 'STOP/OFF' position after use.

For best results spray in the heat of the day when [Weed Weapon Natural Power](#) is most effective. Complete coverage is required for effective control.

For best results spray when growth is active from September until March. Spray both upper and lower leaf surfaces if possible.

Available As

Concentrate: 500 ml, 1 L, 5 L

Ready to Use: 1 L, 2 L and 4 L Pump'n'Spray

Active Ingredients

Concentrate: 650 g/L fatty acids (plant derived) as an emulsifiable concentrate.

Ready to Use: 70 g/L Fatty Acids (plant derived) as a ready to use liquid.

For Best Results

- Apply in Spring, Summer and Autumn; but can be applied year-round.
- Ensure complete coverage of weed foliage.
- Repeat on any re-emerging weeds after 1 month.

Caution

- Cause skin and eye irritation.
- Avoid contact with skin and eyes.
- Do not contaminate waterways.
- Do not apply near desirable plants or turf, as this is a non selective weed killer.
- On lawn weeds, use as spot treatment only; Weed Weapon Natural Power will kill lawn grasses.
- If desirable plants are sprayed, immediately hose off with water.
- If using near coloured paving stones test a sample area before application.
- Avoid spraying aluminium or rubber.

Regulations

HSNO Approval Code:

Ready to Use - HSR101202

Concentrate - HSR101254

ACVM Registered – Concentrate: P009599
